

## Product Environmental Profile

PEP **ecopassport**® the international Programme operator for declaring the environmental impact of electrical, electronic, and HVAC-R products.

PEP ecopassport®

# Environmental declaration of your products

## What is a PEP?

Your product's environmental ID card

A recognised and certified\* eco-declaration process

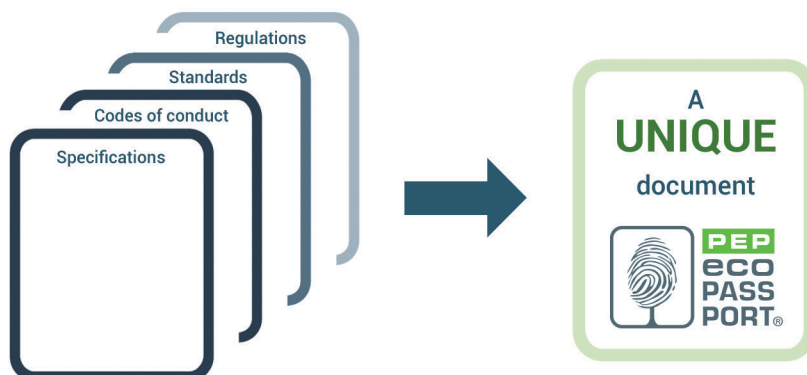

A programme with an international scope

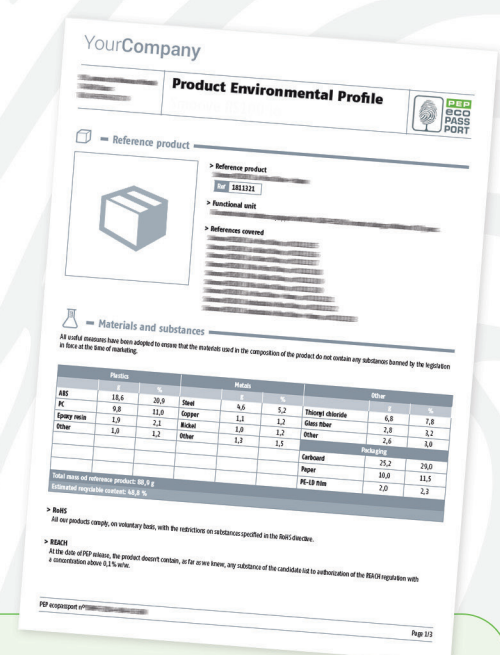

\*ISO 14025, 14040, 14044 standards

## Why create a PEP?

With the proliferation of environmental labels, certifications and claims, what is the most reliable way to satisfy Building Environmental Quality requirements with a single document whilst enhancing your credibility and your image?

A sample declaration in PEP ecopassport® format

## What is a PEP for?

- ✔ To anticipate regulatory obligations
- ✔ To demonstrate your environmental performance
- ✔ To equip your eco-design process
- ✔ To make your equipment eligible for environmental certifications
- ✔ To add credibility to your environmental communication
- ✔ To guarantee the transparency of your environmental declarations

PEP ecopassport®

# The benefits of our programme

## The programme brings to you

1

### Framework

- Environmental footprint based on Life Cycle Assessment (LCA)
- Rules to suit each product category
- Independent verification of PEPs

2

### Recognition

- Rules that comply with international standards and are recognised in regulations
- A historic programme born of a broad-based industrial partnership
- Used by many market-leading manufacturers

3

### Visibility

- International validity
- A public library: 2000 PEP ecopassport® already registered
- A clear response to various standards (HQE, LEED, BREEAM)

PEP ecopassport® is the only environmental declaration programme dedicated to electrical, electronic, and HVAC-R equipment.

## Our testimonials

*"Product environmental declarations give objective data on the environmental characteristics of products without jumping to conclusions about whether they are good or bad."*

**Pierre-Yves Berthélémy**  
Environmental Manager  
Atlantic Group.

*"This is a good way to stay one step ahead of changes in the regulations and always be prepared to face the challenges of the future."*

**Michele Galatola**

Product Team Leader,  
Directorate-General  
for the Environment,

*"The PEP contains information that is really useful for me. If every product had one, it would make my life a lot easier!"*

**Lend Lease Builders**  
Electrical Engineering Specialist  
and one of Australia's  
leading builders

Would you like to publish an environmental declaration for one or more products?  
Would you like to become a member and take advantage of the many benefits  
members of the PEP Association receive?  
Or would you just like more information?
